# JWM Smart Lock System Quick Start Guide

*Best Solution For You*

# HELLO!

Thank you for choosing our **Smart Lock System**

This short guide will help you configure all basic settings needed to setup your smart lock system for first time and learn about all the necessary steps in order to quickly **manage** this system.

**You need prepare:**

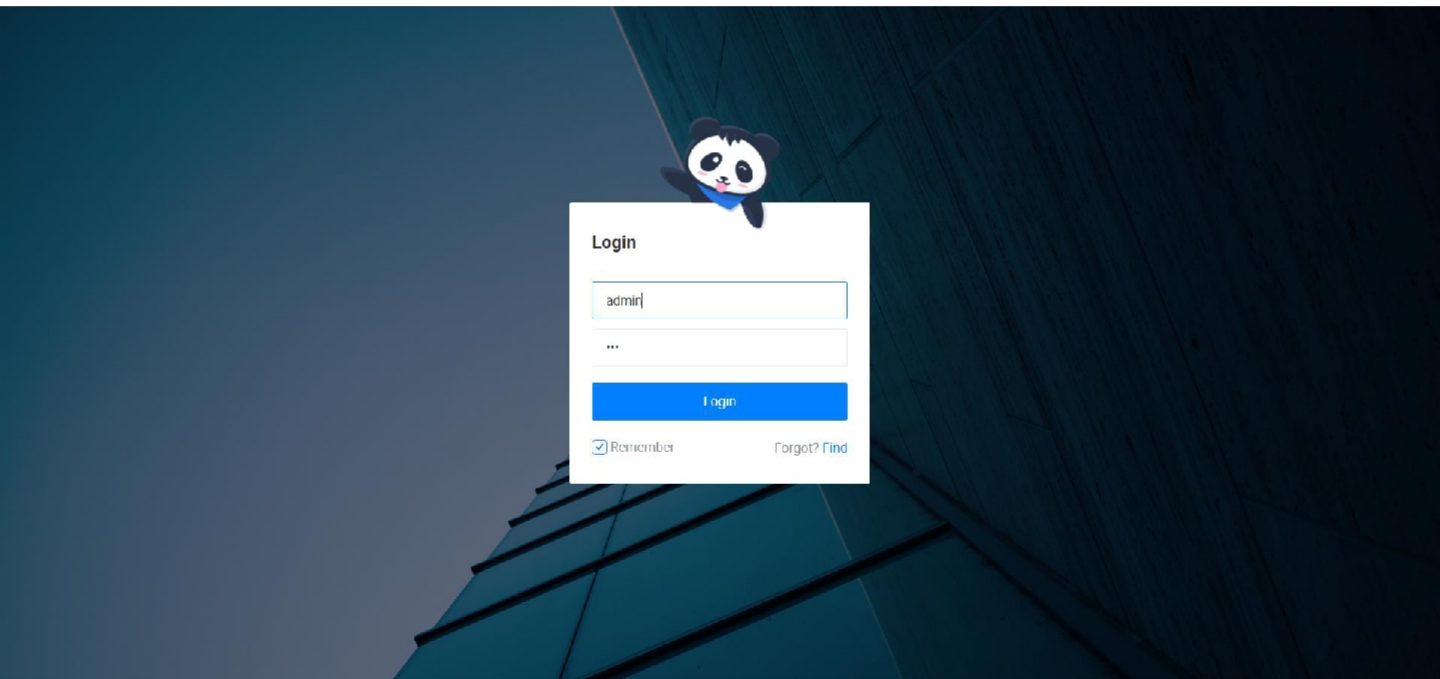

**Smart Lock System**

**Smart Lock APP**

**Bluetooth Electronic Key**

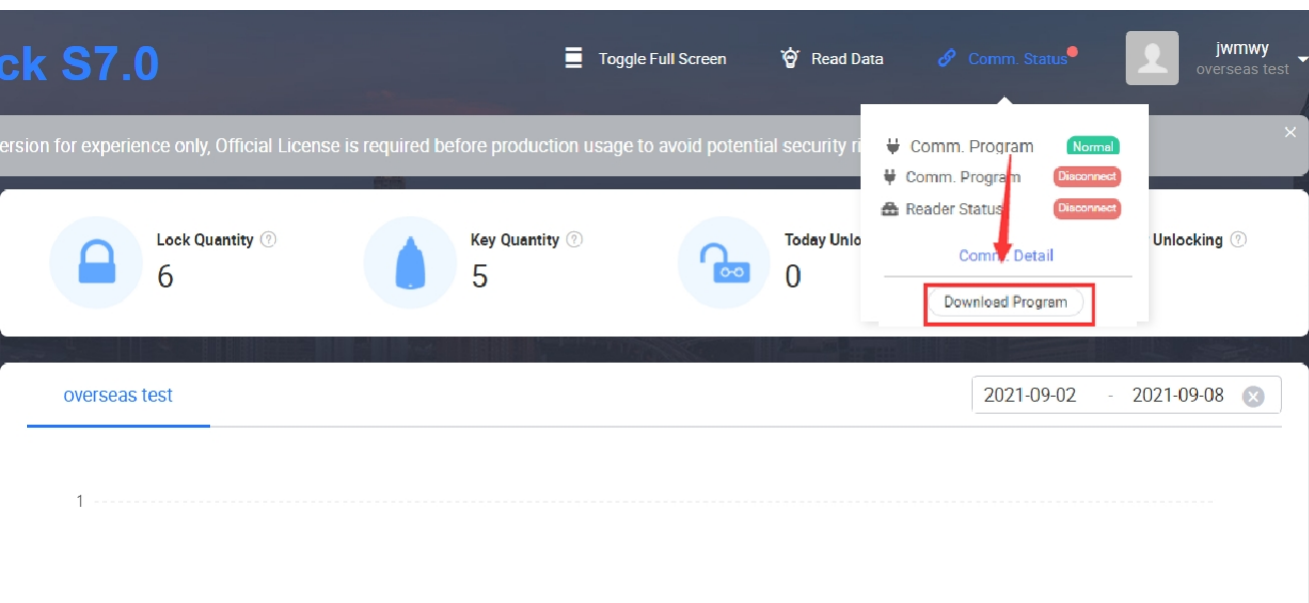

**Intelligent Passive Lock**

# 1. Log in Software

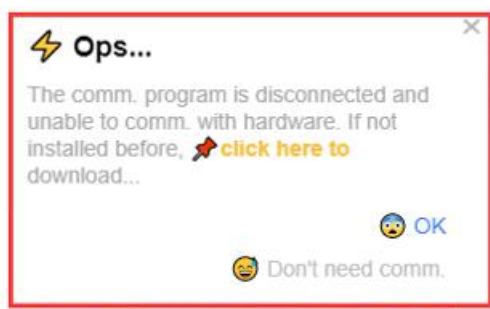

- Enter the username and password after installing the software.
- Default account is “admin”, the password is “999”.

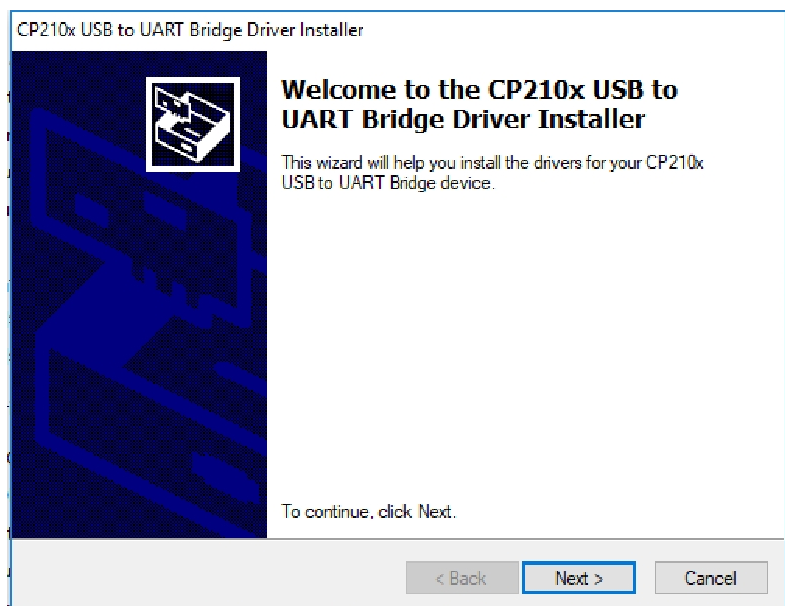

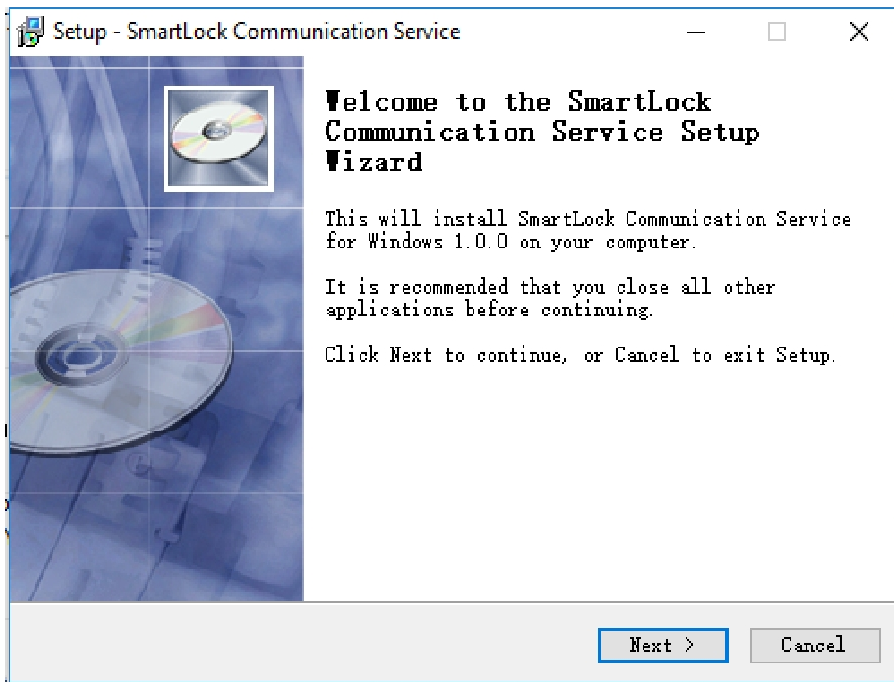

## 2. Download and install Communication Program

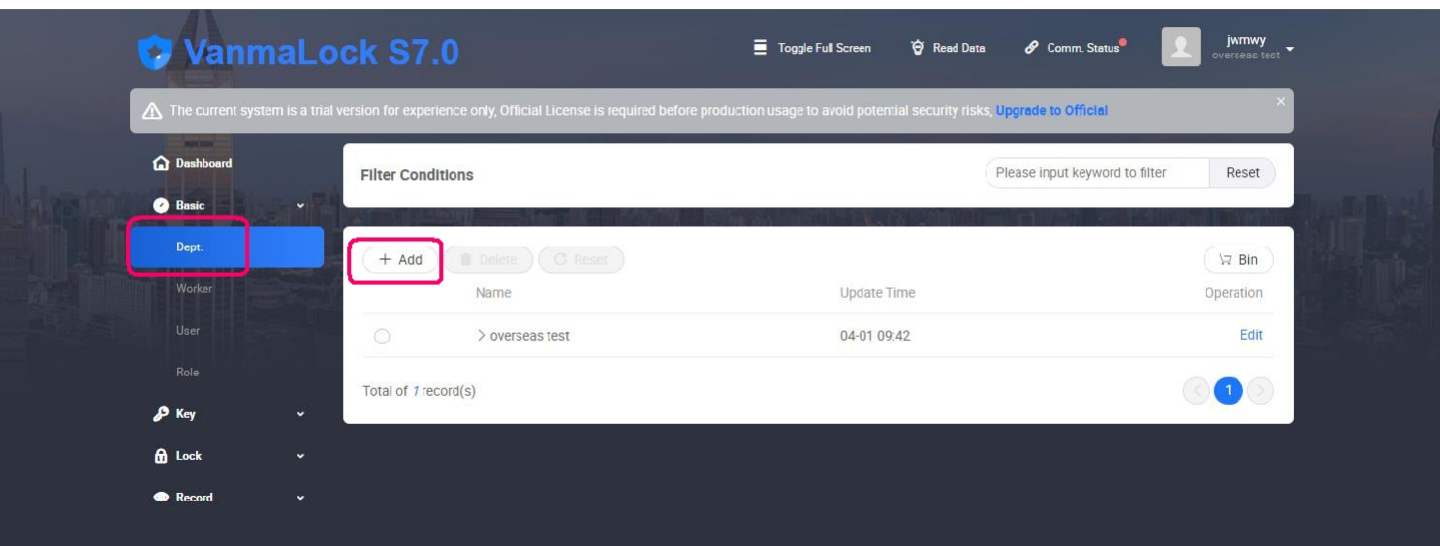

- There will be a prompt when you enter this software if you did not install the communication program.
- Or you could click “Comm. Status, Download Program”.

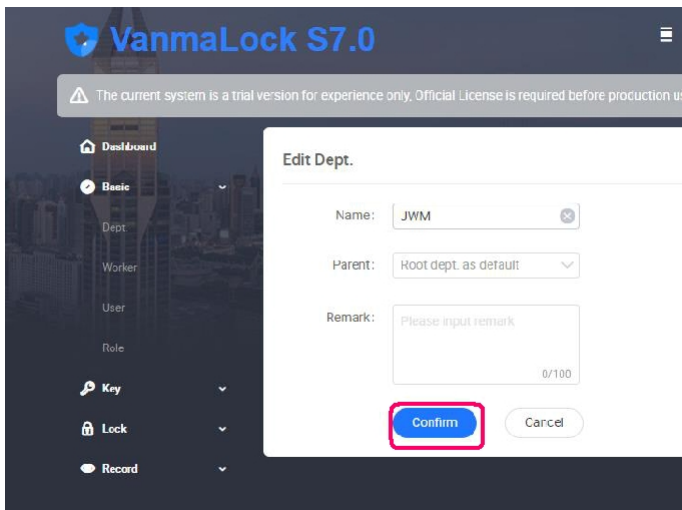

### 3. Setup Department

- Click Dept. --- Add a new department.

- Enter department name, choose his primary department (root department as default), click confirm.

- Once you create a department, you could not change his primary department.

## 4. Setup Worker

**VanmaLock S7.0**

The current system is a trial version for experience only. Official License is required before production usage to avoid potential security risks. [Upgrade to Official](#)

Vanma Lock

The screenshot shows a registration form with the following fields and options:

- Dept: overseas test
- Gender: Male (selected), Female
- Platform: [App] Worker
- Enable: [On]
- Audit: [On]
- Username: Jackie
- Password: 123
- TEL: 1234567
- Add: JWM
- Fingerprint: + Collect (highlighted with a red box)

A modal dialog box titled "Collect" is overlaid on the form. It contains an illustration of a laptop connected to a fingerprint key by a cable, and a hand holding the key. The text inside the dialog reads: "Connect the Fingerprint Key and prepare for collecting by following the voice prompts, multiple times placement of your finger may required." At the bottom of the dialog are two buttons: "Cancel" and "Connected".

- Now we need to back to collect fingerprint, click "Collect", you will hear the voice prompt from the key to ask you place and left your finger for 3 times

- And name it, click "OK", then the fingerprint you set will be successful.

## 6. Add Lock-Through Platform

#### Basic Info.

Let's do some basic configurations

Dept.

Please select a dept.

Lock No.

0000000000

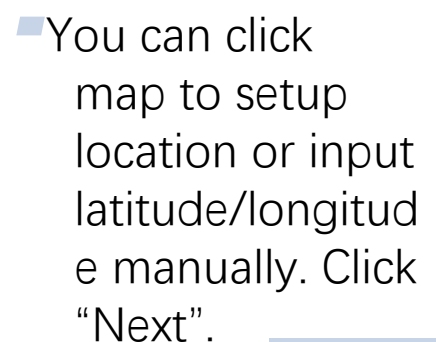

Name(location name recommended)

Lock 001

Prev.

Next

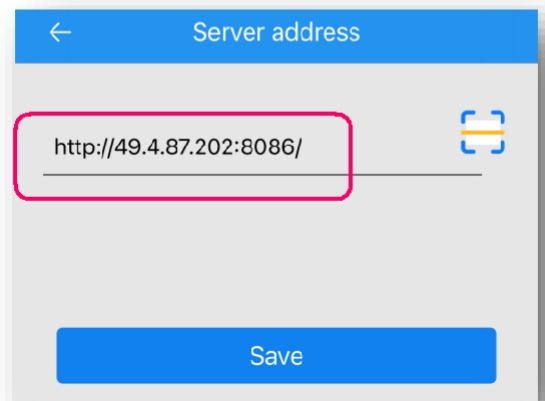

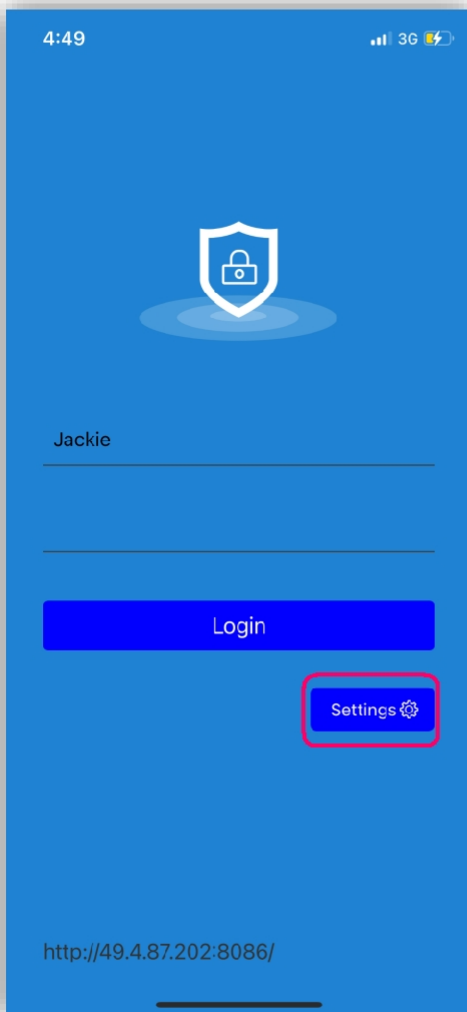

- Select one department for this lock, and name it. Click “Next”.

## 5.Login APP

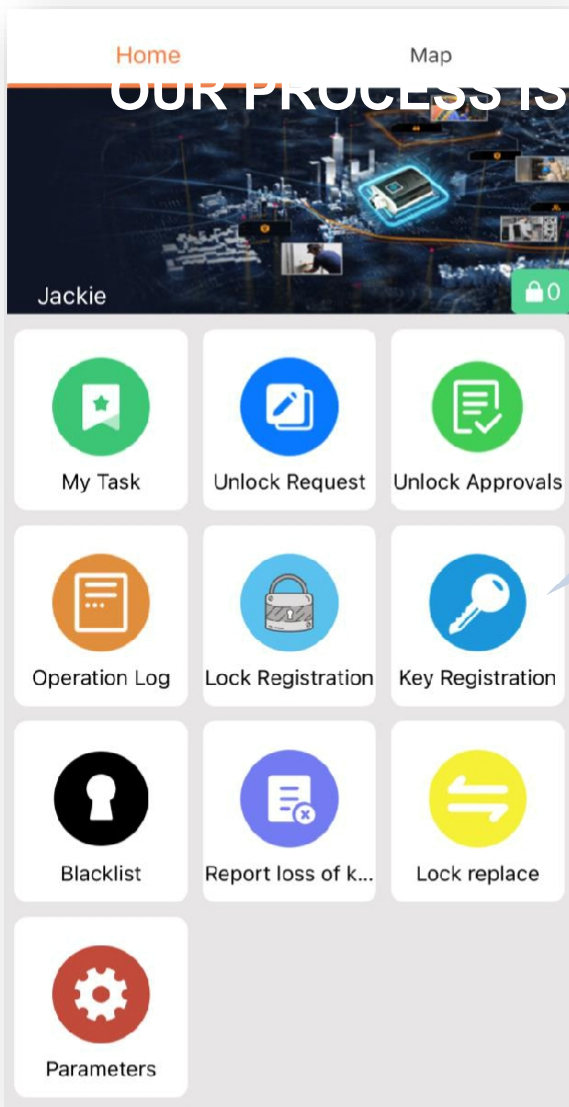

After install VANMA LOCK APP. Start it.  
The icon is like this.

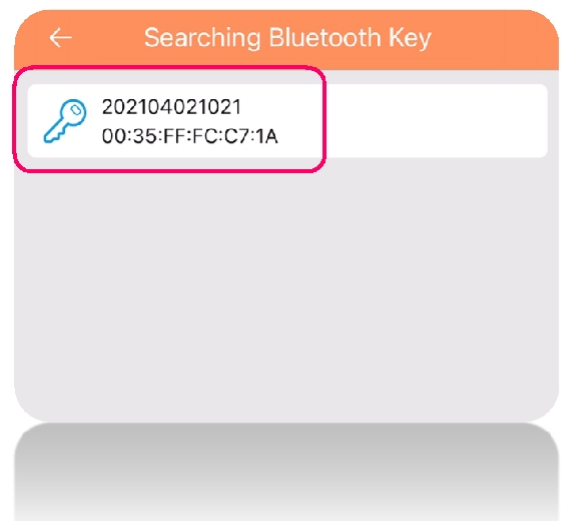

- Input the username and password (default password is 123)
- Click setting to enter software address (<http://49.4.87.202:8086/>) when you login APP at first time.

Vanma Lock

## 6. Add Key-Through Application

Home Page. Click Key Registration to add keys.

- Click in, it will start to search Bluetooth Key. Click it.

9:33 3G

← Key Registration

Name B 1

MAC: 00:35:FF:FC:C7:1A

KeyID: 202104021021

Key hardware version: 3

KeyTime: 2021-09-14 11:08:47

Set initialization lock system code key

Register

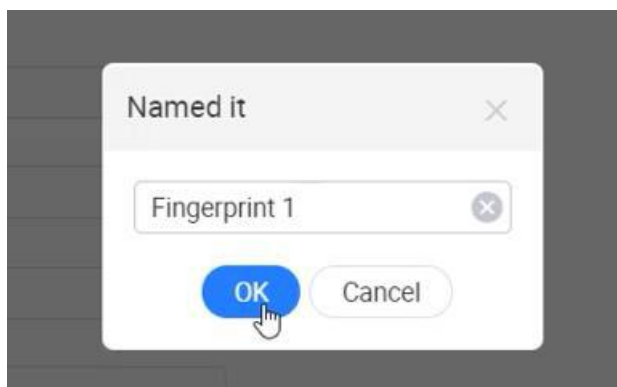

■ Here you could name this key or name it in the software.

■ Click Register, there will be a register key successfully prompt.

Register key successfully

- Now we need to back to the software to collect fingerprint, click "Collect", you will hear the voice prompt from the key to ask you place and left your finger for 3 times.

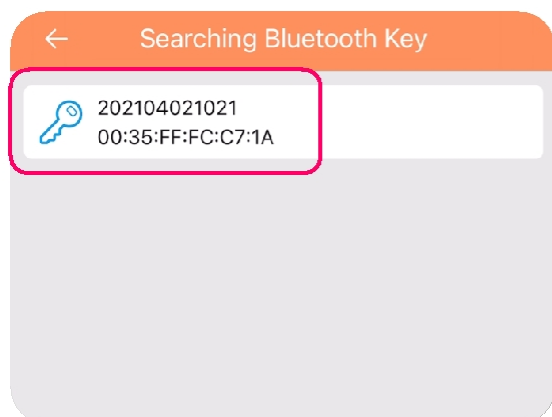

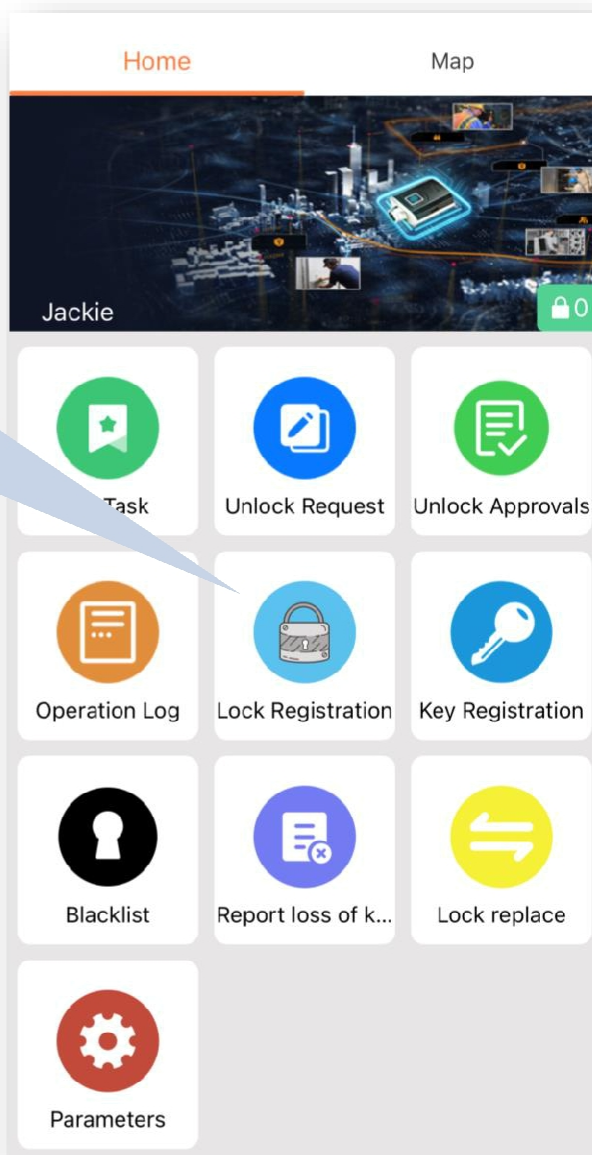

- And name it, click "OK", then the fingerprint you set will be successful.

## 7. Add Lock-Through Application

Home Page. Click  
Lock Registration to  
add locks.

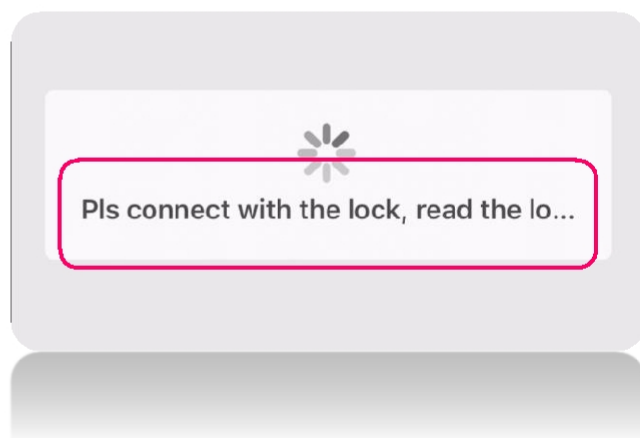

9:42 3G

← Lock Registration

**Name** Lock 111

**Lock ID:** 202103319003

Register

- Click the Bluetooth key, touch lock with it when you see the prompt. Then you could name this lock in app.

# Q&A

Attention:

4. The software you see now is the trial version, all the keys and locks need be initialized under “Key List” when you use the official version, otherwise the keys and locks will be invalid in the official software.

Now the quick start  
guide manual is end.  
Any questions,  
you could send email to  
[support@lockmanage.com](mailto:support@lockmanage.com)

Thanks for choosing **JWM**!  
Bye 🤝

# Thanks!
